HARD 2 BREAK

FREE GUIDE · JOSHUA HEALD

YOUR FIRST FRONT LEVER

HOW OFTEN

Train each step 2 times a week, 3 if you're not too sore.

HOW LONG

It took me about 4 months, but I was already very fit. Closer to a year for most people.

YOU NEED

A pull-up bar, and bands for the last steps.

Hit the goal on each step before you move on. That way you don't injure yourself.

HARD 2 BREAK

YOU HIT EVERY STEP

YOUR FIRST FRONT LEVER

After the lightest band, push the bar away from you and try it with no band. That's how you're going to get your first front lever hold.
