HARD2BREAK

FREE GUIDE · JOSHUA HEALD

YOUR FIRST FRONT LEVER

HOW OFTEN
Train each step 2 times a week, 3 if you're not too sore.

HOW LONG
It took me about 4 months, but I was already very fit. Closer to a year for most people.

YOU NEED
A pull-up bar, and bands for the last steps.

Hit the goal on each step before you move on. That way you don't injure yourself.

GRIP AND CORE PHASE 1

STEP 1
STRAIGHT BAR HANG
1 MINUTE

1. Hang from the bar.
2. You need to be able to hang for about one minute before you move on.

STEP 2
KNEE TUCKS TO THE CHEST
10 REPS

1. Bring your knees all the way up to your chest.
2. Hold for a second.
3. Bring your knees back down.

STEP 3
LEG RAISES TO HALFWAY
5–10 REPS

1. Raise your legs to halfway.
2. Hold for a second.
3. Come back down.

LEVER RAISES PHASE 2

STEP 4
TUCK LEVER UPS
5–10 REPS

1. Bring your knees to your chest.
2. Rotate and push the bar away from you.
3. Hold for a second, then come back down.

STEP 5
TOES-TO-BAR LEG RAISE
5–10 REPS

1. Push the bar away from you.
2. Bring your toes to the bar with your legs straight.
3. Come back down.

STEP 6
SINGLE-LEG LEVER RAISE
5–10 REPS

1. Drive one knee to your chest and stick the other leg out.
2. Raise up to the single-leg lever.
3. Come back down and switch sides.

STEP 7
STRADDLE UPS
5–10 REPS

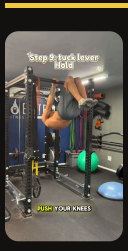

1. Put your legs into the straddle position.
2. Bring yourself up into a straddle lever.
3. Come back down.

STEP 8
FRONT LEVER UPS
5–10 REPS

1. Push the bar away from you.
2. Bring yourself up to a front lever for a second.
3. Come back down.

LEVER HOLDS PHASE 3

STEP 9
TUCK LEVER HOLD
15–30 SECONDS

1. Bring yourself up into the tuck front lever.
2. Push your knees away from you and push the bar away from you.
3. Hold here.

STEP 10
STRADDLE LEVER HOLD
15–30 SECONDS

1. Straddle your legs out.
2. Push the bar away from you.
3. Hold in the straddle lever.

STEP 11
SINGLE-LEG LEVER HOLD
15–30 SECONDS EACH SIDE

1. Hold one knee to your chest and take one leg out.
2. Push the bar away from you.
3. Hold in the single-leg lever, then switch sides.

BAND-ASSISTED HOLDS PHASE 4

STEP 12
BAND-ASSISTED FRONT LEVER HOLD
15–30 SECONDS

1. Put the band around the bar and around your neck.
2. Get your feet into it and push your feet away from you.
3. Go into the front lever and hold.

STEP 13 · ADDED STEP
LIGHTER BAND HOLD
15–30 SECONDS

1. Same setup, with a lighter band.
2. Push your feet away from you and go into the front lever.
3. Hold.

STEP 14 · ADDED STEP
LIGHTEST BAND HOLD
15–30 SECONDS

1. Same setup, with your very lightest band.
2. Push your feet away from you and go into the front lever.
3. Hold.

AFTER THE LAST STEP

After the lightest band, push the bar away from you and try it with no band. That's how you're going to get your first front lever hold.
